DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Group I, claims 1-7 and 9-18, drawn to an isolated DNAs encoding, expression vectors and host cells for expressing, and a process for using said host cells for the manufacture of a glucoronyl C5-epimerase.

Group II, claims 8, 19, and 20, drawn to glucoronyl C5-epimerases and functional derivatives thereof.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature for the following reasons: Group II, claims 8, 19, and 20, drawn to glucoronyl C5-epimerases and functional derivatives thereof were known in the art (see IDS reference Campbell et al., J Biol Chem 269:26953-26958). The glucoronyl C5-epimerase of Campbell et al. is a functional derivative of the glucoronyl C5-epimerase of the instant application and thus, the above invention, when considered as a whole does not contribute over the prior art.

3. Because these inventions are distinct for the reasons given above, have acquired a separate status in the art and **require a separate search** resulting in an undue search burden on the Examiner, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
